

Getting to know the Belkin Thunderbolt™ 3 Express Dock HD with 2.6 ft / 0.8 m Cable, F4U095

The **Belkin Thunderbolt™ 3 Express Dock HD with 2.6 ft / 0.8 m Cable, F4U095** is an all-in-one docking solution that connects all your peripherals and powers your computer with a single cable. It can daisy chain up to five Thunderbolt devices from the dock and can connect eight separate devices using a Thunderbolt cable. This dock has 40 Gbps speed that is twice the bandwidth of Thunderbolt 2 and eight times faster than USB 3.0.

Product Features

- Three USB-A 3.0
- Two Thunderbolt 3 (USB-C™)
- One Gigabit ethernet
- One DisplayPort™
- One 2.6 ft / 0.8 m Belkin Thunderbolt 3 Cable
- 170W Power Adapter
- Dual 4K video output (DisplayPort, Thunderbolt 3 (USB-C))

NOTE: The monitor should support Thunderbolt 3.

- 85W Power Delivery (PD) powers your computer through the Thunderbolt cable
- 2-Year Limited Warranty
- Supports Ghost Charging - This means that even if the dock is not connected to the host (computer) but it is plugged in with the power supply unit, it will still provide power to charge through the USB ports.

Light Behavior

Connection Status – Light indicator in front of the express dock

- Green if host device is plugged in correctly
- Orange if nothing is plugged in
